

KALASH NIRMALE

SOFTWARE ENGINEER | AWS CLOUD | DATA ENGINEER | BI

+91 7249016727 kmnirmale07@gmail.com linkedin.com/in/kalashnirmale github.com/kalashnirmale

PROFESSIONAL SUMMARY

Detail-oriented Software Engineer with over 2 years of experience building scalable, secure, and automated **data solutions** on AWS. Skilled in designing ETL pipelines, data orchestration, and dashboards using **AWS** services. Strong foundation in data engineering and BI concepts. Adept at writing clean, maintainable **Python** code, ensuring Data protection, Terraform, Jenkins for infrastructure automation and **optimizing performance** for BI and analytics workloads.

TECHNICAL SKILLS

Cloud & Data: AWS (Glue, Lambda, API, Step Function, DynamoDB, QuickSight, S3, EC2, IAM, CloudWatch), AWS Architecture Design & Best Practices and familiar with Snowflake

Tools & DevOps: Terraform, Jenkins, Git

Programming: Python, PySpark, SQL

Visualization: QuickSight, Tableau

Concepts: ETL, PySpark, Data Structures, Data Science Concepts, Algorithms, Operating Systems, Networking

PROFESSIONAL EXPERIENCE

NICE Actimize, Pune

Feb 2023 – Present

Software Engineer

- Built a high-performance PySpark-based data-flattening utility in AWS Glue for Anomaly Detection ML model, dynamically pivoting multi-dimensional time-series data (13–18+ months) from S3 and Athena. Optimized Spark execution for incremental flattening, improving scalability and reducing data preparation time for modeling.
- Developed a robust tenant-specific dashboard hosting framework using Python, Terraform, Jenkins, and AWS services (Lambda, Step Functions, API, DynamoDB, Quicksight), enabling automated and scalable dashboard provisioning for multiple clients.
- Led Tableau to QuickSight migration initiative, reducing operational overhead and improving scalability by transitioning to AWS-native visualization solutions; collaborated with external vendors to ensure seamless integration.
- Contributed to Machine Learning data preparation, enhancing data availability and reliability for model training and testing workflows. Worked along side with Data Science, so well aware of DS concepts
- Gained hands-on experience with AWS, PySpark ETL(glue) and domain expertise in the Anti Money Laundering ecosystem.

ACHIEVEMENTS

- CEO Award for demonstrating exceptional leadership, resilience, and ownership in successfully migrating Watch-AML dashboards from Tableau to Amazon QuickSight, managing vendor relations, and enabling faster time-to-market.
- SPOT Award for outstanding contributions to AWS automation and dashboard modernization.
- Security Champion, drove adoption of secure coding practices, vulnerability management, and compliance awareness.

EDUCATION

Walchand College of Engineering, Sangli

2019 – 2023

B.Tech in Information Technology

CGPA: 8.40 / 10

ANN Jr. College, Jaysingpur

2017 – 2019

Higher Secondary Certificate (Science)

Score: 85%
